

DISCOVERY SURVEY · ANONYMOUS

The Shadow AI *Discovery* Survey

Where people use AI off the books, it is usually telling you something useful.
This survey is to learn what, not to catch anyone out.

BEFORE YOU START

This is **anonymous** and there is **no wrong answer and no blame**. We are trying to understand what actually helps and where work is frustrating, so we can provide the right tools and a safe way to use them. Please be honest; that is the entire point.

1. Which AI tools do you currently use for work, official or not?

- ChatGPT
- Claude
- Copilot
- Gemini
- Perplexity
- Other (below)

2. What do you use them for?

The real tasks, however small.

3. Where has AI genuinely helped? What worked?

Your best find. This is the part we most want to spread.

4. Have you ever been unsure whether something was safe to put into an AI tool?

What was it? No blame; this helps us draw a clear line.

5. Which part of your work is most frustrating, or where do you most wish AI helped?

Even if no tool does it yet.

6. What would make it easier to use AI well and safely here?
